

Continuing Education for Laboratory Medicine Professionals

Workshops for 2004:

Are you working in the Laboratory Medicine industry and looking for professional development opportunities that are designed to enhance your skills and provide a stimulating learning environment with like minded people? These popular workshops have been developed with you in mind:

Workshop Topics	Date
Transfusion Science (intermediate)	February 2 - 6
Blood Cell Morphology	February 9 - 11
Basic Blood Banking	June 2 - 4
Introductory Haematology	October 20 - 22

These workshops are conducted in the spacious grounds and unique architecture of the buildings on the RMIT Bundoora campus. The award winning Biosciences building is home to International and local students and researchers of the School of Medical Sciences. Workshops are sponsored by leading companies and the content is directly relevant to this industry's needs.

How do you secure a place in a workshop?

You can find out more about these workshops and how to secure a place via the contact details indicated below.
